

DSI-NRF  
Centre of Excellence  
in Food Security

# YOUR RIGHT TO FOOD IS A HUMAN RIGHT.

Science and knowledge helps to protect that right.

## OVERVIEW:

Everyone deserves enough safe and healthy food. Science helps farmers grow better crops, and research helps families eat better. Knowledge helps communities stay strong. The **DSI-NRF Centre of Excellence in Food Security** (CoE-FS) works to make this possible.

## WHAT WE DO:

We use science to:

- improve nutrition and health
- protect food safety
- support farmers and workers
- help government make better decisions
- understand how climate change affects food.

## HOW THIS HELPS YOU:

Our research helps to:

- make food safer to eat
- keep food prices fair
- improve school nutrition
- support small farmers
- protect the health of farm workers.

## REMEMBER:

You have the right to:

- enough healthy food
- safe working conditions
- knowledge that improves your life
- information you can trust.
